# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
On February 15, 1975
- Export shipments in  
Current Marketing Year
- Daily Sales reported  
February 16 - 24, 1976

-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of February 26, 1976 (based on reports from exporters during the week ending February 15, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 increased by 238,900 metric tons (MT). Total commitments now stand at 28.0 million MT, of which 22.4 million MT are cumulative exports and 5.6 million MT are outstanding sales. New sales to Colombia (80,000 MT), Ecuador (60,000 MT), and Japan (48,100 MT) accounted for most of this week's increases in commitments. A 54,600 MT rise in commitments to the USSR reflects transfers from optional origin rather than new sales. Commitments to Colombia and Ecuador now total 323,000 MT and 218,000 MT, respectively; both well ahead of commitments to those countries at the same time a year ago. Commitments to Japan now total 2.8 million MT, about equal to those at this time last year.

Feedgrains: The apparent export commitment for feedgrains in 1975/76 rose by 989,900 MT, bringing this year's total commitment to 29.4 million MT. Corn commitments advanced by 845,100 MT, largely as a result of new sales to Japan, the Republic of Korea, Bulgaria, and unknown destinations. This week's new sales to Bulgaria have pushed total commitments to that country for the year to 149,400 MT, more than triple the commitments to that country at this time last year. Increased commitments to the Soviet Union of 146,700 MT largely reflect transfers from optional origin, not new sales. Grain sorghum commitments grew by 149,100 MT, over one-half of which was accounted for by new sales of 85,500 MT to Venezuela. Commitments to Venezuela for the year now total 168,800 MT, about 79,000 MT below commitments to that country at this time last year. Likewise, total grain sorghum commitments are running behind those of last year, with only 4.0 million MT committed to date compared with 5.6 million MT committed during the comparable period last year.

Soybeans: The apparent export commitment for 1975/76 increased by 407,900 MT, primarily reflecting increased commitments to the European Community (EC), Japan, Taiwan, Romania, and Canada. Since mid-January the average weekly increase in commitments to the EC has been about 180,000 MT. The proposed EC deposit system on oilseeds and meal aimed at encouraging use of surplus nonfat dry skim milk powder in mixed feeds is playing a predominant role behind trading activities. Because it is generally believed that the EC Council of Ministers will approve the scheme without major modification, oilseed crushers, importers, and compounders are trying to secure as much material as possible before the effective date.

Exports during the week totaled 398,700 MT, including shipments to the EC (197,000 MT), Japan (82,800 MT), Taiwan (44,100 MT), Israel (30,000 MT), Spain (23,400 MT), and Romania (21,300 MT).

Soybean Oilcake and Meal: The apparent export commitment increased by 57,400 MT, primarily reflecting increased commitments to Italy, Venezuela, Czechoslovakia, and Iran. Exports during the week totaled 88,300 MT, slightly above the average weekly rate of exports - 84,900 MT - through 20 weeks of the season. Major takers of meal were West Germany (34,700 MT), Italy (14,300 MT), Hungary (12,600 MT), and Czechoslovakia (9,500 MT).

Cotton: U.S. cotton continued to be competitive during the week. The 1975/76 export commitment for Upland cotton increased by 55,000 running bales (RB), even though 30,000 RB were cancelled. New sales to the Republic of Korea were the major factor influencing the increase. The apparent export commitment to Japan in 1975/76 declined by 12,000 RB as new sales offset about half the cancellations to that market. But sales of 10,000 RB for 1976/77 delivery were registered to Japan.

Although activity in most importing countries was slow during the week, prices were supported by firm domestic mill demand in some exporting countries (Brazil, Turkey, and Greece) and by the absence of offers from the USSR.

OUTSTANDING EXPORT SALES AND EXPORTS - 1975/76 MARKETING YEAR
